

Guthrie Ithaca City Harbor

Guthrie is proud to announce the next step in our 30-year history in Ithaca and Tompkins County – **Guthrie Ithaca City Harbor**.

This new, \$30 million, 60,000-square foot facility answers the community's demands for more specialty services housed in a convenient location. At Guthrie Ithaca City Harbor, community members will have access to more health care options, including:

- Audiology
- Breast Surgery
- Colorectal Surgery
- Endoscopy
- Facial Plastic Surgery
- Family Medicine
- Gastroenterology
- General Surgery
- Interventional Pain Management
- Nephrology
- Neurosurgery
- Orthopedics
- Otolaryngology
- Physical, Occupational and Hand Therapy
- Radiology, including Breast and Interventional
- Specialty Eye Care, including an Optical Shop
- Sports Medicine
- Urology
- Walk-in Care

The new facility features a state-of-the-art GI/Endoscopy suite and comprehensive breast care that includes 3D mammography, dedicated breast radiology and a fellowship-trained breast surgeon. Expanded orthopedic services include same-day appointments and a large space for PT, OT and hand therapy.

Guthrie Ithaca City Harbor is designed with patients in mind. It features kiosk check-ins to minimize wait times, and the Lean design brings all team members to the patient exam room for care.

Guthrie Ithaca City Harbor

We are also bringing greater integration to Guthrie Ithaca City Harbor. Having more than 20 specialists under one roof allows for a greater level of collaboration with less wait time for patients with complex conditions requiring expertise from multiple specialties.

At Guthrie, patients have access to eGuthrie, allowing them to message their care team, self-schedule, have virtual visits, view test results, visit summaries and more. Because eGuthrie is linked to Epic medical records, updated patient information is available to nearly 700 providers in Guthrie's network in real time, meaning even the most complex cases can be safely managed.

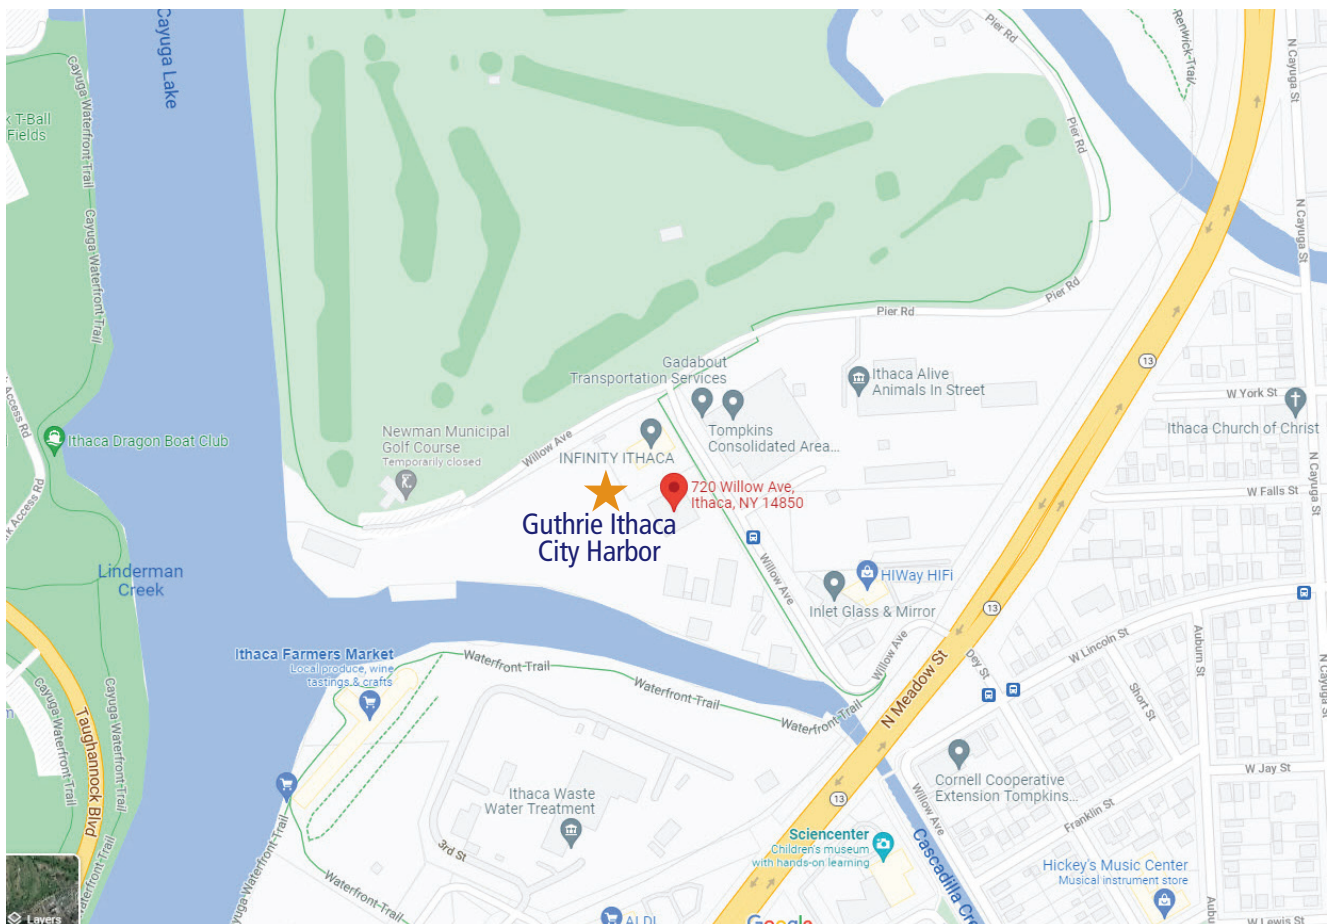

We also know how important the environment is to the community. That's why we've included things like an effluent energy system and energy-efficient lighting systems to reduce the building's carbon footprint.

Its location on the TCAT bus route makes it accessible to every community member.

We've also made referrals more convenient. Patients can schedule through their eGuthrie accounts or by calling **866-GUTHRIE** (866-488-4743).

Guthrie will continue to focus on Primary Care, Cardiology, Occupational Medicine, Vascular Surgery and Pulmonology Services at our Hanshaw Road location, which is a short drive (≈6 miles NE) from Guthrie Ithaca City Harbor.
