

HealthWorks Wellness and Fitness Center

Updated Mask Guidelines

Effective Monday, May 24, 2021

After reviewing the new masking guidelines issued by New York State and the CDC, HealthWorks Wellness and Fitness Center will be updating our guidelines as follows:

- Masks will not be required for fully vaccinated members while using the facility.
- Members who have not been fully vaccinated will still be required to wear a mask while using the facility.
- Masks are still required in healthcare settings. Patients at HealthWorks for physical therapy, cardiac rehabilitation, or a physician visit will still be required to wear a mask regardless of their vaccination status.
- All HealthWorks members must wear a mask in the shared entrance/hallway. Fully vaccinated members may remove their mask after they pass the fitness desk and have their temperature checked.
- All members must continue to social distance and remain 6 feet apart when possible. HealthWorks fitness equipment will remain 6 feet apart.
- Although not required for fully vaccinated members, masks are encouraged for all members. HealthWorks Wellness and Fitness Center staff will continue to wear masks regardless of vaccination status.
