Your first visit
Your initial appointment will consist of a consultation explaining your diagnosis and treatment options. Occasionally, surgery can be performed the same day as the consultation. However, a complex medical history or treatment plan will require an evaluation and a second appointment to provide treatment on another day. Please assist us by providing the following information at the time of your first visit:

- Your referral slip and any x-rays, if applicable.
- A list of medications you are currently taking.
- If you have medical and/or dental insurance, please bring your insurance ID cards with you.

Billing information
Payment in full is expected at the time of service for each visit. For your convenience, we accept cash, personal checks, money orders, debit cards, Visa, MasterCard, Discover, and traveler’s checks.

Please contact our office at 570-887-2418 if you have questions about an upcoming appointment, insurance, or your payment.

Patients whose treatment includes services in both Guthrie Medical Group’s Dental Department and Oral Surgery Department such as dental implants will receive a treatment plan estimate separately from each department. Insurance coverage for oral surgery services may vary and in many cases, your medical and dental insurance plans will be billed. After coordination of benefits is completed, any remaining balance will be the patient’s responsibility.

Insurance information
We are a participating office with numerous medical insurance plans and with Delta Dental Insurance. If you have medical and/or dental insurance, we will submit a claim to your insurance plan and will make every effort to maximize your insurance reimbursement for covered procedures. Please be sure to read your policy carefully to become familiar with its benefits and limitations. A pre-treatment estimate will be provided for major services such as dental implants and multiple tooth extractions or upon your request.

Patients with insurance coverage for plans which we participate with are expected to pay their estimated responsibility and/or co-payments at the time of service. Patients with insurance coverage for plans we do not participate with or uninsured patients are expected to pay in full at the time service is rendered. Insurance plans which we do not participate with will reimburse patients directly for any available benefits.
