

WHAT'S NEW

Welcoming New Providers

We are pleased to share the latest developments at Guthrie Specialty Eye Care as we continue to enhance our services and expand our team.

David E. Sperber, MD, non-operative retina specialist, joins us in Vestal. Dr. Sperber's previous private practice is now Guthrie Vestal Specialty Eye Care, and is welcoming patients.

These additions underscore our commitment to exceptional eye care. We value our partnership with you and look forward to continuing to enhance the vision and quality of life for our patients.

MULTIFOCAL INTRAOCULAR LENSES (IOLS)

Guthrie is proud to offer this specialty service to patients undergoing cataract surgery. IOLs are premium artificial lenses implanted to provide enhanced vision at near, intermediate and far distances, reducing the need for glasses. Innovations like trifocal and extended depth-of-focus IOLs minimize halos and glare, offering clearer vision and improved quality of life for patients. These premium implants are now offered by all Guthrie cataract surgeons.

PEDIATRIC OPHTHALMOLOGY

Beginning **December 2025**, **Dr. Salar-Gomceli** will provide pediatric ophthalmology services in Sayre. Specialized care includes treatment for amblyopia, binocular vision dysfunction, multifocal intraocular congenital cataracts, ocular motility disorders and strabismus, alongside standard pediatric eye care.

Referrals can be made in
Epic, Guthrie EpicCare Link
and by calling **800-4-SIGHT-2**
